Anticline Resources plc

Q2 2026 production report

Quarter ended 30 June 2026. Production summary by operation with guidance unchanged.

Highlights

Quarterly copper production at Cerro del Viento was 34,100 t, 1% higher than the March quarter and 3% above the same quarter last year. Mill throughput averaged 145,000 t per day across the quarter, and concentrate shipments totalled 118,000 t. At Lufwanyama, the ramp-up reached 5,800 t of cathode in the quarter, up from 2,100 t in the first quarter. Acid plant availability averaged 94%, and the leach pad expansion commissioned in April is performing to design.

Production by operation, June quarter 2026

Operation	Commodity	Q2 2026	Unit
Cerro del Viento	Copper	34.1	kt
Ruvuma Gold	Gold	50.8	koz
Wilga Creek	Lithium	109.6	kt
Matawara	Copper	5.8	kt

Guidance

Full-year guidance is unchanged. The September quarter report is scheduled for release on 14 October 2026.
